

A self-care package  
**A home safety solution**  
for you or your loved ones!

"I had an epilepsy attack and sustained a head injury. My mother pressed the HoME+ panic button and a community responder came to my aid.

I would recommend the elderly to use this service as the volunteers are responsive, helpful and friendly. They provide support and aid when needed, providing a peace of mind to family members."

Ms Salinah Sani lives with her mother, Mdm Samnah Kadir, a HoME+ user.

## Let HoME+ be your solution!

The response team will be alerted to check in when unusual patterns are detected. When in distress, you can also press a panic button to call for help.

Photo reference of the HoME+ set devices.

**HoME+** can be a great help for:

- Seniors living alone
- Post-surgery patients
- Wheelchair users and more!

The HoME+ Service Package  
**\$48/month**

## What do I get with HoME+?

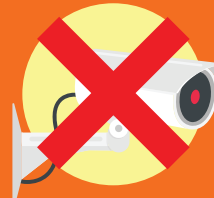

24/7 helpline and assistance

Regular check-in on well-being

Community responders bring help within 1 hour

100% privacy, no CCTVs

Detects prolonged period of no movement

Immediate involvement of SCDF for critical cases

**WiFi is needed for system to function.**

\*Red Cross Call Centre will assess and activate the Singapore Civil Defence Force's (SCDF) ambulance for emergency cases.
