# DeploySafe: Humanitarian Risk & Security Training

#### 6.5 hours training

Equipping humanitarian workers with essential knowledge and skills to navigate complex security environments effectively. Participants will gain a deeper understanding of security contexts, risk management, situational awareness, and practical responses to security challenges.

## <u>Humanitarian Training</u> DeploySafe: Humanitarian Risk & Security Training

Course Description       This course equips humanitarian workers with essential knowledge and skills to navigate complex security environments effectively. Participants will gain a deeper understanding of security contexts, risk management, situational awareness, and practical responses to security challenges.         Course Modules       • The Security Context for Humanitarians         • Risk Management       • Situational Awareness         • Vehicle Checkpoints       • Vehicle Checkpoints         • Physical Security       • Information Security         Language       • English         Certification       • Classroom training         • Interactive discussions       • Practical simulations         • Practical simulations       • Practical simulations         Learning Opportunities       • Humanitarian workers deployed in high-risk environments         • NGO staff involved in field operations       • Officers supporting humanitarian missions	Duration	• 9am – 4.30pm, 6.5 hours
Course Descriptionto navigate complex security environments effectively. Participants will gain a deeper understanding of security contexts, risk management, situational awareness, and practical responses to security challenges.Course Modules• The Security Context for Humanitarians • Risk Management • Situational Awareness • Vehicle Checkpoints • Physical Security • Information Security • Information SecurityLanguage• EnglishCertification• A Certificate of Participation will be issued upon completion of the course.Methodology• Classroom training • Interactive discussions • Practical simulationsLearning OpportunitiesAt the end of the course, humanitarian workers should be able to be well- prepared to handle security threats while staying safe during deployments.Target Audience• Humanitarian workers deployed in high-risk environments • NGO staff involved in field operations		·

	Target Audience	Humanitarian workers deployed in high-risk environments
Officers supporting humanitarian missions		NGO staff involved in field operations
		Officers supporting humanitarian missions

### **Curriculum Outline**

Modules	Brief Outline
The Security Context for Humanitarians	<ul> <li><u>Learning Outcome:</u></li> <li>Understand the security context under which humanitarians operate.</li> <li>Identify resources available for better comprehension of the security context.</li> <li>Learn basic risk management strategies for enhancing security.</li> </ul>
Risk Management	<ul> <li>Learning Outcome:</li> <li>Grasp risk management as a holistic, systemic approach.</li> <li>Recognize different risk domains</li> <li>Become familiar with available risk management instruments</li> </ul>
Situational Awareness	<ul> <li><u>Learning Outcome:</u></li> <li>Define situational awareness.</li> <li>Discuss the importance of situational awareness for humanitarians.</li> <li>Learn effective techniques for maintaining situational awareness in deployment conditions.</li> <li>Recognize Tell Tale Indicators for enhanced awareness.</li> </ul>
Vehicle Checkpoints	<ul> <li><u>Learning Outcome:</u></li> <li>Understand the differences between Vehicle Checkpoints (VCP), roadblocks, and ambushes.</li> <li>Learn how to safely approach, transit, and exit a VCP.</li> <li>Identify risk mitigation strategies when encountering an ambush.</li> </ul>
Physical Security	<ul> <li>Learning Outcome:</li> <li>Recognize security considerations when selecting accommodation.</li> <li>Learn physical security risk management strategies (4 D's and the "Onion").</li> <li>Appreciate the importance of rehearsing contingency plans.</li> </ul>
Information Security	<ul> <li>Learning Outcome:</li> <li>Explain the importance of information security for deployed humanitarians.</li> <li>Apply a simple framework for Cyber Risk Context.</li> <li>Understand digital footprints and strategies to reduce them.</li> <li>Learn about phishing and prevention measures.</li> </ul>
