

If you would like to make a more meaningful donation in-kind, we are currently in search of the following items for our residents of **Red Cross Home for the Disabled (RCHD)**:

| Item | Description |
|-------------------------------|--|
| Adults Diapers | All our residents wear diapers. Each one needs at least 6 pcs per day. |
| Ensure milk powder | For our tube-feeding residents with difficulty swallowing food. Each one requires 18 tins per week. |
| Thickening agents | Thickening agents can be used when medical condition such as dysphagia cause individuals difficulty when swallowing. We need 120 tins per month. |
| Bedside protective paddings | Use of padded bed rails and bed rail protectors to help reduce the risk of patients becoming entrapped in the tight spaces around a typical bed rail. We hope every resident will have a set of their own. |
| Ankle padding | To prevent pressure ulcers. |
| Bed Restraint Roll Belt | The Bed Restraint Roll Belt keeps a resident in bed gently and comfortably. |
| Wheelchair anti-slip fastener | To prevent residents from sliding out of their wheelchair. |
| Mattress | High density foam, water-proof, anti fungus. |
| Shower trolley | Residents have to remain laid flat at all times whilst it can be uncomfortable for others to sit upright. |
| Wet wipes | Wet wipes are used to ensure the hygiene level of our residents. Each one requires 30 cartons per month. |
| Air Cooler | Our Homes are non-air conditioned. Sometime residents' dormitory can be very hot and humid despite all fans are on full blast. |
| Air Purifier | To removes contaminants from the air in a room. |

Please **email us** or **call us** if you would like to contribute.
